## FRONT-END EXPERTISE: BUILDING EXCEPTIONAL DIGITAL EXPERIENCES

I'm a creative web developer skilled in building dynamic, responsive, and user-friendly websites. With a strong foundation in modern front-end technologies and a passion for clean, efficient code, I aim to deliver smooth user experiences. Working towards becoming a MERN stack developer, I stay updated with the latest tools and industry standards to contribute to innovative and impactful projects.

## SKILLS

### Programming Languages

Proficient in JavaScript

Familiar with Python

Knowledge of C++

### Frameworks & Libraries

Expert in React.js

Familiar with Express.js

Experience with Material-UI and Tailwind CSS

### Front-End Development

Skilled in HTML5, CSS3, and Responsive Design

Principles

Experienced with CSS-in-JS, Styled-Components, and SASS

### Tools & Platforms

Firebase

Git and GitHub

VS Code, and Chrome Developer Tools

## Projects

### Hostel Reservation App

Developed a full-stack hostel reservation application enabling users to search, book, and manage hostel accommodations. Integrated features include user authentication, real-time messaging between users and hostel owners, booking history tracking, and a favorites section.

### Hotel Management System

Designed and developed a comprehensive Hotel Management System to streamline various hotel operations. The system supports room booking, food service management, employee management, customer feedback, and loyalty programs. It also includes features for managing event bookings, room service requests, and customer interactions. The project aims to provide an intuitive interface for both hotel staff and customers, enhancing operational efficiency and user satisfaction.

### Recipe Management App

Created a recipe application where users can manage, search, and share recipes. The app includes personalized user dashboards, shopping lists, and step-by-step instructions for each recipe. Users can also review, rate recipes, and interact with the community.

## Professional Experience

### Teknovation

#### Software Development Intern

**Teknovation | January 2024 – October 2024**

Teknovation is a software house specializing in custom software solutions for various industries.

- Assisted in building backend services with Firebase for client applications.
- Developed front-end features using React.js.

### DevsInz

#### Frontend Development Intern

**DevsInz | October 2024 – December 2024**

DevsInz focuses on providing internship opportunities for students in the field of web development.

- Developed responsive web applications using React.js and Tailwind CSS.
- Collaborated on designing features for client websites and improved UI/UX.

## Education

Bachelor of Science in Computer Science (BSCS)

University of Swat | 2020 – 2024
